I'm a Senior Frontend Engineer with 7+ years building web applications for SaaS and marketplaces, including payment and compliance flows. I work end to end (React and Vue → NestJS → Laravel), have led a team of 7 developers, and today I focus on production reliability and on using AI in software development.

## PROFESSIONAL EXPERIENCE

### Soluevo · contracted to Voomp (Cogna group), a platform for creators

Oct 2025 – present

**Senior Frontend Engineer**

React · Next.js · Vue 2 · TypeScript · NestJS (BFF) · Laravel · Sentry · Azure DevOps

- Work end to end across **Front → BFF → API** on compliance, payment and financial reporting flows.
- One of the main developers of the **KYC onboarding journey**; built the **reports hub** and the **Integrations module**, with automated tests and accessibility.
- Instrumented the entire platform with **Sentry**, from the dashboard to checkout: **32k+ previously silent errors** tracked in 3 months.
- This let the team map errors and the app's sensitive spots and prioritize fixes with data, making the product **more robust**. I also fixed an **authorization flaw** that exposed data across accounts.
- Led the squad's **AI First** initiative: an agent kit that cut impact analysis from ~4h to ~30min.
- **Volunteer mentor** at Soluevo: I've mentored 6 people starting their careers or switching into tech, with study plans, a real project and code review; one of them landed a full-time job.

### Sumé Tecnologia

Jan 2024 – Sep 2025

**Frontend Tech Leader** · May 2024 – Sep 2025 | **Frontend Developer** · Jan 2024 – May 2024

React · Next.js · TypeScript · Chakra UI · Tailwind · Angular · Keycloak · WebSockets

- Led a **team of 7 frontend developers**: sprints, code review, mentoring and career development.
- Designed the **micro frontend architecture** (Next.js and TypeScript) with centralized authentication via Keycloak.
- Delivered **Sonar** (GovTech integrated with Rio de Janeiro's Public Prosecutor's Office) and real-time WhatsApp automation apps with WebSockets.

### Hivegroup

Jul 2021 – May 2024

**Software Developer** · 2023 – 2024 | **Frontend Developer** · 2021 – 2023

Vue · Nuxt · React · Next.js · TypeScript · Chakra UI · Tailwind · WordPress · Figma

- Built products in Vue/Nuxt and React/Next.js for clients such as Claro, Merz Aesthetics and Grupo Marbella.
- Highlights: a financial management system with permission control (Marbella) and an internal project manager that replaced ClickUp and Jira (HivePro).

### Freelancer

Apr 2019 – Jul 2021

**Frontend Developer**

- Websites, e-commerce stores and landing pages in WordPress, PHP and JavaScript, from Figma design to launch.

## TECHNICAL SKILLS

| | |
|---|---|
| **Frontend** | React, Next.js, Vue, Nuxt, TypeScript, Tailwind, design systems, micro frontends, accessibility |
| **Backend** | NestJS (BFF), Node.js, Laravel/PHP, REST APIs, WebSockets, Keycloak |
| **Quality** | Sentry, Jest, Testing Library, code review, Git, Azure DevOps |
| **AI** | Coding agents (Cursor, Kiro), MCP, hub-first second brain in Obsidian, workflow automation |

## EDUCATION & LANGUAGES

**B.Sc. in Information Systems**
UniRios · 2017 – 2020

Portuguese (native) · English (upper-intermediate, B2)

## CERTIFICATIONS

Meta Front-End Developer · Advanced React · Principles of UX/UI Design · Version Control (Meta)
EF SET English — B2

## FREELANCE PROJECT

**Livraria Astronauta · 2026**
Online bookstore built for a client with Next.js 16, React 19 and Tailwind.
